City of Ladue Public Works Superintendent

Subject: 1 Ton Truck Replacement

The City has a 1-ton dump truck (651) due for replacement in 2019. However, due to production scheduling with the factory orders could not be placed early enough in 2019 to take delivery before yearend. If the order is placed by the end of 2019 the pricing will be locked in until the truck would be delivered in early 2020.

This purchase would be made off the MoDOT State Bid contract #IFB 605CO19001412. All MoDOT bidding is done in accordance with all applicable statutes and maximizes competitive procurement and awards on all contracts.

The total purchase price for this vehicle after trade-in is $52,369.40 and is under budget. I am recommending that Dave Sinclair Ford be awarded this purchase.
