

NOTICE

S. WARSON ROAD CLOSED FOR CONSTRUCTION

On May 29, 2009, the City will begin construction of the S. Warson Road Phase II project. This project includes replacement of the S. Warson Road bridge over Deer Creek, stormwater improvements, a sidewalk on the west side of S. Warson Road, curbs and an asphalt overlay of the roadway. The roadway should be reopened to traffic before August 17, 2009.

During this period, S. Warson Road will be closed to through traffic at S. Warson Road & Foxboro, and S. Warson Road & Briarwood. Motorists are asked to seek alternate north/south routes such as S. Lindbergh Blvd. or S. Price Road as this closure will cause traffic congestion.

Residents living south of the bridge along or off of S. Warson Road. (Springwood-Briarwood subdivision) can access their subdivision from the Clayton Road side of S. Warson Road or Lindbergh Blvd.

Residents living north of the bridge along or off of S. Warson Rd. (Foxboro Road and Warson Terrace subdivisions) will have access from the Conway Road side of Warson Road.

We appreciate your patience during this construction and are confident that these improvements will be worth the inconvenience.
