

CITY OF LADUE
SWIMMING POOL
SUBMITTAL REQUIREMENTS:

1. Site locator map indicating property location
2. Site plan at a scale of 1"=20' or larger indicating the following:
 - A. Property lines
 - B. Building Setbacks and any easements
 - C. Existing structures (with notes regarding how many stories and construction type)
 - D. Proposed fencing, paving, retaining walls, pools, etc.
 - E. Significant trees, existing/proposed landscaping.
 - F. Grades, existing and proposed.
 - G. Curb cuts.
 - H. Indicate location and size of addition or area of work.
3. Building plans signed and sealed by an architect or P.E.

ALL DRAWINGS MUST ACCURATELY REFLECT THE PROPOSED STRUCTURE AND THE SITE THE STRUCTURE IS LOCATED ON. THE BUILDING DEPARTMENT IS NOT RESPONSIBLE FOR INCOMPLETE OR INACCURATE SUBMITTALS.

CITY OF LADUE APPLICATION FOR BUILDING PERMIT

The owner is responsible for insuring that the information on the Application is true and complete. If your property is in the flood plain, consult with the Building Commissioner or City Clerk before proceeding. The City Staff will assist you in meeting the requirements of this application.

Requirements for Applications

City Ordinances require that an application must have the following items at the time of submission:

- Site plans, drawings and specifications - 2 sets.
- The fully executed application form which must be signed by the owner.
- \$100 deposit or the actual permit cost, whichever is less.

The Site Plan shall be drawn accurately to scale and must show the entire lot, building lines, existing and proposed grades (in terms of mean sea level elevations), street rights-of-way abutting the property, and all existing and proposed structures. The pool barrier must be indicated on the site plan. Swimming pool applications will not be approved without the required pool barrier.

Applications without this site plan will not be accepted.

The Drawings and Specifications must be drawn accurately to scale and shall include: plans and necessary sections to indicate clearly the character and construction of the proposed work.

The Drawings and Specifications must bear the seal of an architect or professional structural engineer registered in the State of Missouri. Sealed drawings and specifications must comply with the provisions of Section 110-71 of the City's Code of Ordinances.

Pool houses or other ancillary structures should maintain the character and standards of the original building or relate well to it architecturally.

Plan Review

For pool applications which include pool houses, verandas, or similar structures which affect the outward appearance, the application materials will be submitted to the Architectural Review Board for their review to determine if the new construction will conform to proper architectural standards of appearance and design and be in conformance with surrounding structures as to style, design, and size. Upon completion of this review, drawings are forwarded to the Building Commissioner for review as to conformance with the City's Zoning and Building Ordinances.

The Building Commissioner's review may reveal a potential violation of City Ordinances in the Owner's request. In such cases, the owner/agent may revise the proposal so that it complies with the ordinances and submit plans for further review.

When the City's review procedure has been completed the owner/agent will be notified that the permit has been issued or the review comments will be forwarded to the owner/agent. Building permit fees are paid when the permit is picked up.

Subdivision Trustees: Trustee notification is required on any swimming pool project. Trustees should be given the opportunity to review an applicant's plans. Subdivision indenture provisions may require alterations to a plan that is otherwise in conformance with City ordinances.

Removal of trees over 6" caliper @ 4 1/2 ft. is prohibited without a permit and may require a review by the Landscape Plan Review Board. Please ask the Building Department staff about this important aspect of your proposed improvements.

Permit Fees, Inspections, Inspection Fees

Building Permit fees are assessed at the time the permit is issued based on preliminary cost estimates. Costs are \$10.00 per \$100 of cost up to \$1,000. Above \$1,000 in cost, the fee is \$4.00 for residential and \$6.00 for commercial per \$1,000 or part thereof in excess of \$1,000. The total fee shall conform to the total cost of the work or operation.

Pre-Construction Inspections: Structures to which alterations or additions are proposed may be subject to an inspection by the Building Commissioner prior to the commencement of work to determine the safety and condition of the structure. The inspection cost is \$15.00 and is not considered a required inspection.

Required Inspections: A minimum of three (3) inspections are required unless the nature of the work is such that the Building Commissioner deems more or fewer inspections are necessary. Inspection fees in excess of those paid for at the time of permit issuance must be paid at or before the final inspection.

Other Important Information

Permit Expiration: Permits expire three months after the date of issuance unless the permitted work has begun. One extension up to six additional months may be granted by the Building Commissioner upon written application by the applicant stating the conditions which prevented commencement of the work within the three month period.

Time Limit on Completion of Work: Work for which a permit was issued must be completed within a period of time specified by the Building Commissioner but not to exceed one year from date of issuance. The Building Commissioner, with the approval of the City Council, may extend the date for completion.

Permit Forfeiture and Cancellation: Permits issued but not called for or accepted by the applicant within thirty (30) days from issuance shall be cancelled and the deposit forfeited. Deposits on applications subsequently denied by the Building Commissioner will be forfeited.

Violations: Work conducted in violation of the City's building codes will be cause for revocation of the permit. Reinstatement of a permit can be accomplished only upon application to the Building Commissioner showing that the provisions of all city ordinances are being met.

Other Required Permits: Grading, Tree Removal, Demolition, Heating, Cooling, Ventilation, Water Heaters, Plumbing, Electrical, Elevators, and Blasting all require separate permits and inspections. The Building Department staff will work with applicants to meet the various requirements in a timely manner.

Plans will be kept by the Building Department for two years following issuance at which time they will either be returned to the applicant or destroyed if they are not picked up.
