RE: Property at [SITE ADDRESS]

Dear Property Owner:

MSD Project Clear is the Metropolitan St. Louis Sewer District's (MSD) initiative to improve water quality and alleviate many wastewater concerns throughout St. Louis City and County.

Our region has older wastewater collection and treatment systems that can be overwhelmed during heavy rains, causing wastewater overflows into area rivers and streams. MSD Project Clear is a program that has been developed and designed to reduce the occurrence of these sewer overflows. MSD has divided this multi-year, multi-billion dollar investment into numerous projects that will be designed and constructed over the next several decades. In your neighborhood, the DC-02 & DC-03 Sanitary Relief project is one such project that will be constructed to address the capacity of the aging sewer system in St. Louis County serving the Deer Creek watershed.

The DC-02 & DC-03 Sanitary Relief project involves construction of a new, larger diameter, trunk sewer beginning near the intersection of Brentwood Boulevard and Manchester Road in Brentwood, and continuing through portions of Brentwood, Rock Hill and Ladue, ending near the intersection of Conway Road and Lindbergh Boulevard. Due to the long length of the project, construction will be accomplished in multiple phases. Phase I of the project has been completed.

MSD has awarded a contract for construction of Phase II of the DC-02 & DC-03 Sanitary Relief project to the Kolb Grading. We would like for you to learn more about this important project since construction activities that may impact the public have begun and will continue through 2020. You are invited to a neighborhood open house type meeting that will be held on **Thursday, February 21, 2019 from 5:00 p.m. to 6:00 p.m. at the Ladue City Hall located at 9345 Clayton Road.** At the meeting, you can learn about the purpose and need for the DC-02 & DC-03 Sanitary Relief project, review the plans and schedule for the project and discuss with the construction manager and contractor any potential construction impacts currently anticipated.

**YOU ARE INVITED TO A
NEIGHBORHOOD PUBLIC
MEETING**

**Thursday, February 21, 2019
Ladue City Hall
Council Chambers
9345 Clayton Road
Ladue, MO 63124
5:00p.m. – 6:00p.m.**

Project Number 12471
