CITY OF LADUE APPLICATION FOR PLAYSET PERMIT

The owner is responsible for insuring that the information on the Application is true and complete. If your property is in the flood plain, consult with the Building Commissioner before proceeding. The City Staff will assist you in meeting the requirements of this application.

Requirements for Applications

City Ordinances require that an application must have the following items at the time of submission:

- Site plans, drawings and specifications – 2 sets.
- The fully executed application form which must be signed by the owner or owner's agent.
- \$100 deposit payable by cash or check

The Site Plan shall be drawn accurately to scale and must show the entire lot, building lines, street rights-of-way abutting the property, and the proposed fence location.

Applications without this site plan will not be accepted.

Plan Review

The Building Commissioner's review may reveal a potential violation of City Ordinances in the Owner's request. In such cases, the owner/agent may revise the proposal so that it complies with the ordinances and submit plans for further review.

When the City's review procedure has been completed the owner/agent will be notified that the permit has been issued or the review comments will be forwarded to the owner/agent. Building permit fees are paid when the permit is picked up.

Subdivision Trustees: Trustee notification is required on any exterior permit. Trustees should be given the opportunity to review an applicant's plans. Subdivision indenture provisions may require alterations to a plan that is otherwise in conformance with City ordinances.

Removal of trees over 6" caliper @ 4 ½ ft. is prohibited without a permit and may require a review by the Landscape Plan Review Board. Please ask the Building Department staff about this important aspect of your proposed improvements.

Permit Fees, Inspections, Inspection Fees

Building Permit fees are assessed at the time the permit is issued based on preliminary cost estimates. Costs are \$100 plus \$5.00 for residential and \$6.00 for commercial per \$1,000 or part thereof in excess of \$1,000. The total fee shall conform to the total cost of the work or operation.

Required Inspections: There are two required inspections as part of your project. The first inspection is a pier inspection to verify 30" post holes. The second is the final inspection to verify project completion and conformity with all building codes and City ordinances. Additional inspection fees may be required if plans are not on site or inspections are cancelled without notifying the Building Department in advance. Additional fees must be paid at or before the final inspection.

Other Important Information

Permit Expiration: Permits expire three months after the date of issuance unless the permitted work has begun. One extension up to six additional months may be granted by the Building Commissioner upon written application by the applicant stating the conditions which prevented commencement of the work within the three month period.
