

# City of Ladue Stormwater Project Status Report

Project Name: **Deerfield-Wakefield Stormwater Infrastructure Improvements Project, Phase 1**  
Project Number: **1601.01**  
Project Phase: **Easement Acquisition**  
Project Manager: **Amanda Griffin**  
**(314) 993-5665**  
**agriffin@cityofladue-mo.gov**

## Scope:

*This project includes construction of a large retention basin and pipe conveyance to reduce flooding of houses, garages, roads, and yards in a residential area of the City of Ladue, Missouri. Currently, sinkholes provide the only stormwater outlet. Most of the homes in this area were constructed between 1930 and 1960. Little or no storm sewer infrastructure was constructed at the time of initial development, relying on sinkholes to drain approximately 104 acres. The project site is northwest of Tilles Park in Ladue. The site lies between Interstate 64 and Litzsinger Road, and west of McKnight Road.*

Estimated Project Value: **\$7 Million**

## Design Schedule

Preliminary Design Start: **July 23, 2018**  
Estimated Final Design Start: **November 24, 2021\***  
Estimated Design Completion: **March 4, 2022\***

## Construction Schedule

Estimated Start: **July 2021\***  
\*These dates are highly dependent on easement acquisition

Design Professional: **HR Green**

General Contractor: **TBD**

## Status Update:

*Easement packet preparation is underway and packets have been submitted to MSD for review prior to resident distribution. Individual stakeholder meetings are underway.*
