

**PRE-QUALIFICATION LIST:
STORM WATER MANAGEMENT PROGRAM
PHASE III: PROJECT DESIGN DEVELOPMENT AND FINAL
PLANS/SPECIFICATIONS/BID DOCUMENTS**

The City of Ladue issued a Request for Qualifications for Phase III of the City's Storm Water Management program in January 2018. Sixteen firms submitted qualifications for consideration. Public Works engineering staff reviewed and scored the submittals by evaluating the firms in accordance with the following:

- Prime consultant qualification
- Qualifications of the Project Manager and Project Team
- Relevant Storm Water Experience
- Methodology/Approach

The City's selection committee conducted interviews on March 27 -28, 2018 with the seven highest ranking engineering firms. The committee then developed a pre-qualification list in effect for the five-year implementation plan period of 2018 – 2022. Firms will be matched to authorized projects.

The following engineering firms are pre-qualified for **stream channel/bank** projects:

- Intuition and Logic
- Civil Design, Inc.

The following engineering firms are pre-qualified for **infrastructure/piped conveyance** projects:

- HR Green, Inc
- Hart Engineering, LLC
- EDM Incorporated
