

## Temporary Traffic Calming Device Permits.

Permits for temporary traffic calming devices can be submitted for install for no more than 120 days. In order to apply for such permit, you will need to follow the link below to the “Citizen Portal”. Permit requests shall be accompanied by the following information attached to your submission:

1. The time frame for the temporary device to be installed.
2. The purpose of the installation
3. The placement of the device
4. Photographs of the type of product being used.

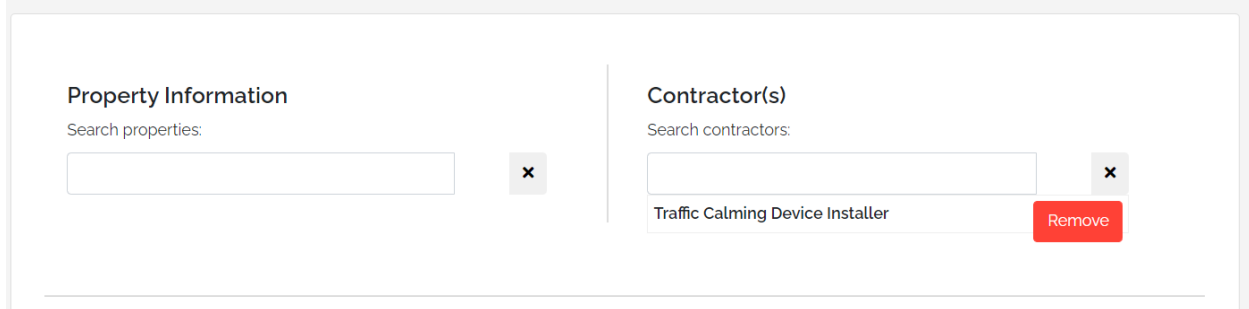

The information above can be submitted in the format of a Word document, PDF and/or photograph attachments.

In order to apply for this permit you will need to either enter “self/homeowner” if you are a Ladue resident requesting the permit OR the contractor requesting the permit will need to be registered in our system by including a valid certificate of insurance as an attachment. Contractors should list the contractor designation of “Traffic Calming Device Installer” in the space where a contractor is requested (see example below). If you have questions or want to be registered in our system before applying online, please call 314-997-6308.

The screenshot shows a form with two main sections: "Property Information" and "Contractor(s)".

- Property Information:** Labeled "Search properties:" with an empty text input field and a small grey "x" button to its right.
- Contractor(s):** Labeled "Search contractors:" with an empty text input field and a small grey "x" button to its right. Below the input field, the text "SELF/HOMEOWNER" is displayed. To the right of this text is a red button labeled "Remove".
